

SUMMATIVE ASSESSMENT – II (2014-2015)

ENGLISH COMMUNICATIVE

Class - IX

Time: 3 hours

Maximum

Marks: 70

Instructions:

The question paper is divided into **three sections.**

Section A	:	Reading & OTBA	20 marks
Section B	:	Writing and Grammar	25 marks
Section C	:	Literature	25 marks

SECTION A (READING & OTBA: 20 Marks)

1(a) **Read the following passage.**

5

INDIAN MUSIC

Indian music has a special appeal not only within the country but also throughout the world. The traditional pattern of Indian music has survived throughout the centuries of modern civilization and entertained not only the common people in this country but lovers of music and art throughout the world. Although there are regional styles in Indian music, but the basic unity, i.e., of Ragas and Talas concept, is uniformly prevalent. Indian music is based on melody. In spirit it is individualistic and the content of the phrases, in the past, was largely devotional. There are two major systems of classical music, the Hindustani system and the Karnatak system. The differences between them are more in practice than their theoretical foundation, as both derive their rules from the same treatise of which the most famous are Bharat's Natya Shastra and Sarangdeva's Sangeet Ratnakar.

The most famous Indian instrument, however, is the Veena, which is celebrated in the epics and other ancient books. It has been described as the companion of Saraswati, the Goddess of learning. Among the other string instruments are the Sitar with its feminine grace, believed to have been devised by the poet Amir Khusroo in the 14th century.

The musical history of India is quite glorious and inspite of some western influences in both instrumental and vocal, the Indian music will be ever shining because of the qualities of its content and structure.

On the basis of your reading of the above passage, answer the following questions :

(1) Indian music has entertained _____.

	<p>(2) In the past, music was mainly _____.</p> <p>(3) Indian Music is very popular inspite of _____.</p> <p>(4) The two major systems of classical music are _____.</p> <p>(5) 'SHAMEFUL' is an antonym for _____.</p>	
1(b)	<p>Read the following passage.</p> <p>A frail child was born on August 26, 1910, to an Albanian family in Skopje, Macedonia. Little did she or anyone else know, that on the command of God, she was to build an empire of love in her later years. With her service to humanity, this little child proved to the world that everything can be conquered with love and compassion. This child was Agnes Gonxha Bojaxhiu who grew up to become Mother Teresa, the mother to the poor, the unloved and the uncared for.</p> <p>India has a great number of lepers. It was believed that this disease is a punishment sent to someone by God and thus, one has to accept and suffer the disease without complaint. The position of a leper is far from enviable in India. They are banned from society, even when they are very rich or highly educated. They lose their work and their family, and beg for food. They live and die like animals.</p> <p>When Mother Teresa explained that this was a disease, which in many cases, could be cured and not a punishment, she met with a wall of cold rejection. But, she started making small villages where the lepers could live and work in peace and be cared for. But, this was not enough, she needed to find a proper place.</p> <p>Mother occupied a useless piece of land near the railroad to start a colony where lepers could build their own bamboo houses and work their own fields. This place she called Shanti Nagar.</p> <p>Complete the following sentences :</p> <p>(a) Mother Teresa was a mother to _____.</p> <p>(b) Leprosy was considered a _____.</p> <p>(c) Mother Teresa made small villages for lepers so that they _____.</p> <p>(d) Shanti Nagar was a place for _____.</p> <p>(e) The word in the passage which means the opposite of 'approval' is _____.</p>	5
2	<p>Theme – “The Cleaning up Campaign Sweeps across the Country” (5+5)</p> <p>a) As Arjun of the play, write a motivational letter addressed to all leather factory owners of your city on the hazardous impact of waste from the leather factories, and suggest some ways to the owners to curb the pollution by the factories they run.</p>	10

b) Government's 'Clean India Campaign' is a dynamic project and a mammoth task. Write a letter to the editor of a national daily mentioning the steps that must be taken by educational institutions and the youth to ensure the successful implementation of this project.

(*Please ensure that open text of the given theme is supplied with this question paper)

SECTION B (WRITING & GRAMMAR: 25 Marks)

3	<p>You are Mohan/Mohisi anguished that in spite of the measures taken by the government almost 1/3 of our country's population lacks literacy. Write an article in 100-120 words your school on how we can promote literacy in India.</p>	5
4	<p>You are travelling across the country and your plane needs to stop for an emergency refuel. You find out something more serious is wrong with the plane and you have to stay overnight. You decide to just stay perpetually in the town you land. What happens ?</p> <p>Write a story on this incident giving it a triumphant closing.(150-200 words)</p>	10
5	<p>Choose the most appropriate options from the ones given below to complete the following paragraph.</p> <p>26th January is a very special day (a) _____ India. It is (b) _____ this day that India became a Sovereign Democratic Republic (c) _____ 1950.</p> <p>(a) (i) for (ii) in (iii) of (iv) off (b) (i) on (ii) at (iii) from (iv) in (c) (i) in (ii) at (iii) on (iv) inside</p>	3
6	<p>The following passage has not been edited. There is one error in each line. Write the incorrect word and the correction in the space provided against the correct blank number.</p> <p style="text-align: right;">Error Correction</p> <p>In the beginning from human (a) _____ existence, needs was simple and (b) _____ many individual produced all that (c) _____ is necessary to sustain life. (d) _____</p>	4

7	<p>Look at the words/phrases given below and rearrange to form meaningful sentences.</p> <p>a. Mela / Kumbh / the Ardh / every / six years / is celebrated / Kumbh Mela / a smaller</p> <p>b. the / is / celebrated / years / Kumbh / mela / normal / 4 / every</p> <p>c. the Maha Kumbh Mela / after / that / 144 years / occurs / Kumbh mela / is a special</p>	3
SECTION C (LITERATURE: 25 Marks)		
Read one of the extracts given below and briefly answer the questions that follow:		
8	<p><i>All the world's a stage</i> <i>And all the men and women merely players :</i> <i>They have their exits and their entrances.</i></p> <p>(a) Name the poem and the poet of the above extract.</p> <p>(b) Explain the line : 'all the men and women merely players'.</p> <p>(c) What is the significance of the words, 'entrances' and 'exits'?</p>	3
OR		
	<p><i>None of that, my friend ! I'm too old a bird to be caught with chaff. You would ask your sister for the keys, would you? A likely story ! You would rouse the house too. Eh? Ha! A good joke truly. Come, where is the food. I want no keys. I have a wolf inside me tearing at my entrails, tearing me; quick, tell me where the food is.</i></p> <p>(a) What does the convict mean when he says: I'm too old a bird to be caught with chaff'?</p> <p>(b) Why does the convict say, 'I have a wolf inside me'?</p> <p>(c) What does 'chaff' mean ?</p>	3
Answer the following questions in about 30 to 40 words each:		
9(i)	Why does Persome say that charity begins at home ?	2
9(ii)	How did Private Quelch impress the other Privates with his knowledge of aircrafts ?	2
9(iii)	Why has the line, 'Oh! I Wish I'd Looked After Me Teeth' been repeated in the poem by Pam Ayers?	2
9(iv)	What strategy did Pescud use to extract information about the girl ?	2

		Answer one of the following questions in about 80-100 words	
10	'Time and tide wait for none'. With reference to the poem 'Oh, I Wish I'd Looked After Me Teeth' write a diary entry expressing your feelings after losing your teeth as a result of eating too much of junk food.		4
		OR	
	Persome quoted 'Charity begins at home.' With reference to 'The Bishop's Candlesticks', do you feel that the Bishop was doing the same ? Discuss the values that are highlighted through the Bishop's character.		4
		Answer one of the following questions in about 150-200 words.	
11	What does the Master horse say about the character of the leader among the Yahoos to Gulliver ?		10
		OR	
	What makes the Yahoos disgusting creatures ?		10
		OR	
	Describe the incident Jerome witnesses at Haymarket Stores where several start fighting with one another dogs.		10
		OR	
	What do we come to know about the three friends from their attempts to open the pineapple tin ?		10
		-o0o0o0o-	

SUMMATIVE ASSESSMENT – II

MATHEMATICS

Class – IX

Time allowed : 3 hours

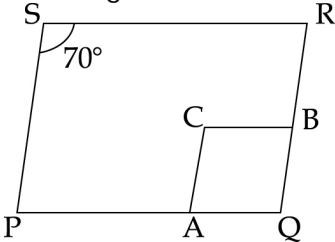

Maximum Marks : 90

General Instructions :

- (i) All questions are **compulsory**.
- (ii) The question paper consists of **31** questions divided into five **sections A, B, C, D and E**. **Section-A** comprises of **4** questions of **1 mark** each, **Section-B** comprises of **6** questions of **2 marks** each, **Section-C** comprises of **8** questions of **3 marks** each and **Section-D** comprises of **10** questions of **4 marks** each. **Section E** comprises of **two** questions of **3 marks each and 1 question of 4 marks from Open Text theme**.
- (iii) There is no overall choice.
- (iv) Use of calculator is not permitted.

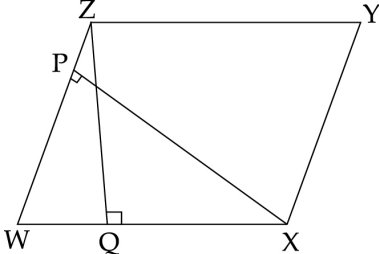

SECTION-A

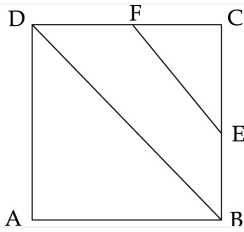

Question numbers **1** to **4** carry **one** mark each.

- | | | |
|---|--|---|
| 1 | The parking charges of a car at Delhi Railway station is ₹50 for first 3 hours and ₹10 for subsequent hours. If for x hours parking charge is ₹ y , then write a linear equation in two variables, which represent this information. | 1 |
| 2 | Cost of three chairs and one table is Rs. 1350. Represent this situation on a linear equation in two variables. | 1 |
| 3 | In the figure, PQRS and AQBC are parallelograms. If $\angle S = 70^\circ$, find $\angle ACB$. | 1 |
|  | | |
| 4 | The radius and the lateral surface area of right circular cone are 8 cm and 220 cm ² respectively. Find its slant height. | 1 |

SECTION-B

Question numbers **5** to **10** carry **two** marks each.

- | | | |
|---|---|---|
| 5 | WXYZ is a parallelogram with $XP \perp WZ$ and $ZQ \perp WX$. If $WX = 8$ cm, $XP = 8$ cm and $ZQ = 2$ cm, find YX . | 2 |
|  | | |
| 6 | Construct an equilateral triangle whose each side measures 5.6 cm. | 2 |
| 7 | In the figure, ABCD is a square and $EF \parallel BD$. Prove that $BE = DF$. | 2 |

8 Find the capacity in litres of a conical vessel having height 8 cm and slant height 10 cm. 2

9 A group of 50 students are selected of class X and asked for their choice of subject to be taken in class XI, which is recorded as below : 2

Stream	PCM	PCB	Comm	Humanities	Total
Number of Students	19	8	11	12	50

If a student is chosen at random find the probability that it is :

- (i) A student of science stream
- (ii) A student of Humanities

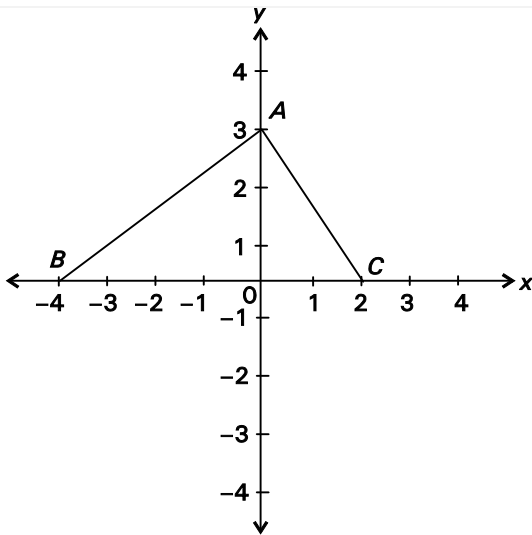

10 Check whether $\frac{7}{6}$ can be an empirical probability or not. Give Reasons. 2

SECTION-C

Question numbers 11 to 18 carry **three** marks each.

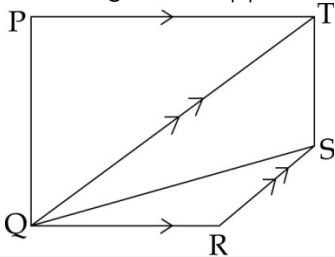

11 In the linear equation $y = 4x + 13$, if x is the number of hours a labourer is on work and y are his wages in rupees then draw the graph. Also find the wage when work is done for 6 hours. 3

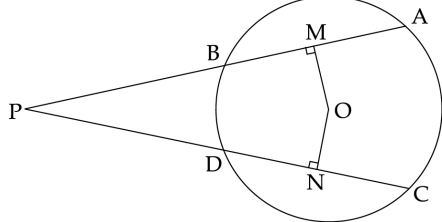

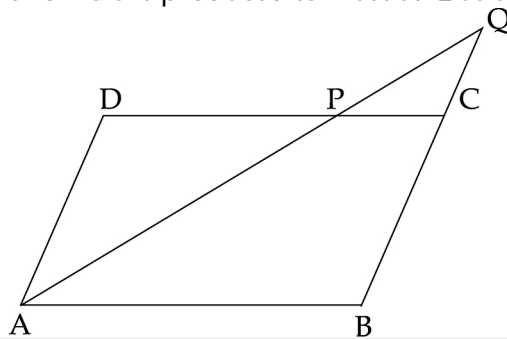

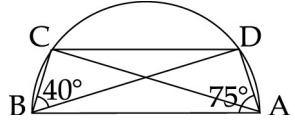

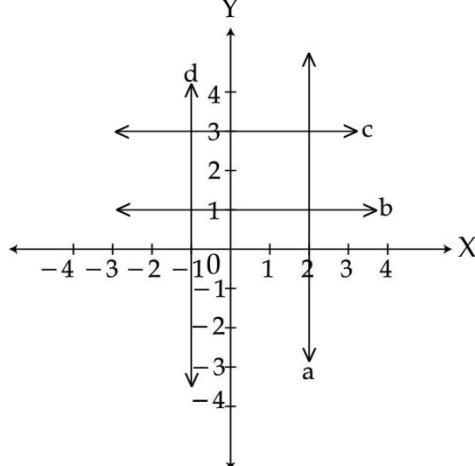

12 3

ABC is a right angled triangle. Write equation of BC and find its length. Also find its area.

13 In the figure, $PT \parallel QR$ and $QT \parallel RS$. Show that $\text{ar}(\Delta PQR) = \text{ar}(\Delta QTS)$. 3

14	<p>In the figure, AB and CD are two chords of a circle with centre O, intersecting each other at P when produced such that MP=NP. If $OM \perp AB$ and $ON \perp DC$, show that $AB=CD$.</p> 	3
15	<p>Draw any acute angle. Divide it into four equal parts, using ruler and compass.</p>	3
16	<p>In a parallelogram ABCD, $AB=12$ cm and $AD=8$ cm. The bisector of $\angle A$ meets DC at P. AP and BC are produced to meet at Q as shown in the figure. Find the length of CQ.</p> 	3
17	<p>In the given figure, C and D are points on the semicircle with AB as diameter. If $\angle BAD=75^\circ$ and $\angle DBC=40^\circ$, find $\angle ABD$, $\angle ACB$ and $\angle BDC$.</p> 	3
18	<p>The diameter of the moon is approximately one-fourth of the diameter of earth. Compare their volumes and curved surface areas.</p>	3
SECTION-D		
<p>Question numbers 19 to 28 carry four marks each.</p>		
19	<p>To convert temperature in degree Celsius (C) into Kelvin (K), one has to add 273 in C. Write a linear equation which shows the relation between these two units and draw the graph for the same. Also, convert 38 degree Celsius into K and 38 K into degree Celsius.</p>	4
20	<p>Write the equations of the lines drawn in following graph :</p>  <p>Also, find the area enclosed between these lines.</p>	4

21	<p>In a quadrilateral PQRS, diagonals PR and QS intersect each other at O such that ar (ΔPOS)= ar (ΔQOR). If distance between sides PQ and SR is 4 cm, PQ=3 cm and SR=7 cm, find ar(PQRS).</p>	4																
22	<p>AB and CD are two parallel chords of a circle which are on the opposite sides of the centre such that AB=16 cm and CD=12 cm and the distance between them is 14 cm. Find the radius of the circle.</p>	4																
23	<p>Construct a ΔXYZ in which $YZ=6$ cm, $\angle Y=60^\circ$ and $XZ - XY = 2.5$ cm.</p>	4																
24	<p>$l \parallel m$ and they are intersected by a transversal p. Show that the quadrilateral formed by the bisectors of the interior angles so formed is a rectangle.</p>	4																
25	<p>75 Students of class 9th visited an old age home and each one prepared a cylindrical flower vase made of board as gift. The radius of cylinder is 7 cm and height is 336 mm.</p> <p>(a) What is the amount spent for purchasing the board at the rate of Rs 10 per 50 cm^2 ?</p> <p>(b) Which value is depicted by the students ?</p>	4																
26	<p>The capacity of a closed cylindrical vessel of height 2 m is 30.8 litres. How many square metres of metal sheet would be needed to make it ?</p>	4																
27	<p>The height and the base diameter of conical tomb are 24m and 14m respectively. Find the cost of white washing its curved surface at the rate of Rs. 210 per 100 sq m. Also find volume of air inside the tomb.</p>	4																
28	<p>The height of the students of a class is measured and recorded as given below:</p> <table border="1" style="width: 100%; border-collapse: collapse; text-align: center;"> <tr> <td>Height (in cms)</td> <td>120-125</td> <td>125-130</td> <td>130-135</td> <td>135-140</td> <td>140-145</td> <td>145-150</td> <td>150-155</td> </tr> <tr> <td>No. of students</td> <td>7</td> <td>7</td> <td>11</td> <td>3</td> <td>5</td> <td>9</td> <td>8</td> </tr> </table> <p>A student is selected at random. Find the probability that height of a child is :</p> <p>(i) more than 135 cm</p> <p>(ii) at least 145 cm</p> <p>(iii) at most 130 cm.</p> <p>(iv) between 125 and 140</p> <p style="text-align: center;">(* Please ensure that open text of the given theme is supplied with this question paper.)</p> <p>Theme :Atithidevo Bhavah</p>	Height (in cms)	120-125	125-130	130-135	135-140	140-145	145-150	150-155	No. of students	7	7	11	3	5	9	8	4
Height (in cms)	120-125	125-130	130-135	135-140	140-145	145-150	150-155											
No. of students	7	7	11	3	5	9	8											
29	<p>Refer to Table-2 and answer the following questions :</p> <p>(i) What is the difference in FTAs from Europe and America for the year 2011 ?</p> <p>(ii) What is the difference in FTAs from Asia and Africa for the year 2011 ?</p> <p>(iii) FTA from which two continents was same in 2011 ?</p>	3																
30	<p>Draw a bar graph to represent the number of FTAs from different regions of the World (in lakhs approximately) during the year 2011.</p>	3																
31	<p>Refer to table-2 Arrival of foreign tourists in India from different regions.</p> <p>(a) Draw a bar diagram for arrival of foreign tourist in India from different regions in 2011 taking numbers of foreign tourist arrival (in Lakh approx.) on horizontal line and regions on vertical line.</p> <p>(b) State the difference of maximum arrival and minimum arrival from different regions in 2011 in thousands.</p>	4																

SUMMATIVE ASSESSMENT – II (2014-15)

SCIENCE

Class – IX

Time allowed: 3 hours

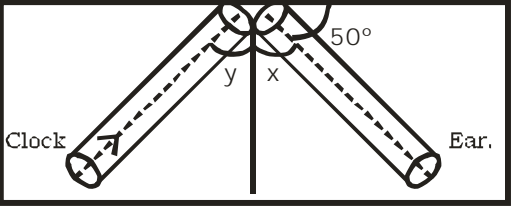

Maximum Marks: 90

General Instructions :

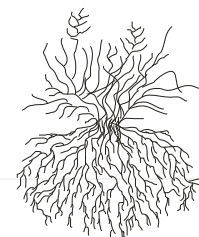

- (i) The question paper comprises of **three Sections, A, B and C**. You are to attempt all the sections.
- (ii) **All** questions are **compulsory**.
- (iii) There is no choice in any of the questions.
- (iv) **All** questions of **Section-A, Section-B and Section-C** are to be attempted separately.
- (v) Question numbers **1 to 3** in **Section-A** are **one mark** questions. These are to be answered in **one word** or in **one sentence**.
- (vi) Question numbers **4 and 5** in **Section-A** are **two marks** questions. These are to be answered in about **30 words** each.
- (vii) Question numbers **6 to 16** in **Section-A** are **three marks** questions. These are to be answered in about **50 words** each.
- (viii) Question numbers **17 to 21** in **Section-A** are **five marks** questions. These are to be answered in about **70 words** each.
- (ix) Section B has **3 OTBA** questions. Question number **22** is **two marks**, Question number **23** is **three marks** and Question number **24** is **five marks** question.
- (x) Question numbers **25 to 33** in **Section-C** are multiple choice questions based on practical skills. Each question is a **one mark** question. You are to select one most appropriate response out of the four provided to you.
- (xi) Question numbers **34 to 36** in section C are **two marks** questions based on practical skills. These are to be answered in about **30 words** each.

SECTION-A

1	Write atomicity of the following : (i) Sulphur (ii) Phosphorus	1
2	What is the number of electrons in Mg atom and Mg ⁺² ion ?	1
3	Mention the two main factors on which the health of an individual depends.	1
4	A Sound wave travels in air with a speed of about 330 m/s. Find the wavelength of the sound wave if its frequency is 500 Hz.	2
5	Define work. Write an expression for work in terms of force and displacement. State SI unit of work done.	2
6	Write the chemical formulae of the compounds formed by the following ions : (a) Mg ⁺² and S ²⁻ (b) Cu ⁺² and OH ⁻ (c) Al ⁺³ and Br ⁻ Name the compounds formed in each case.	3
7	(a) From Rutherford's α -particle scattering experiment give the experimental evidence for deriving the conclusion that (i) most of the space inside the atom is empty. (ii) the nucleus of an atom is positively charged. (b) What was the major drawback of Rutherford's atomic model ?	3
8	(a) Carbon and oxygen combine in a ratio of 3 : 8 by mass to form carbon dioxide. Deduce the ratio by number of atoms in the compound. (b) While searching for various atomic mass units, scientists initially took 1/16 of the mass of an atom of naturally occurring oxygen as the unit. State two reasons. (atomic masses O=16, C=12)	3

9	(a) Outline the basis of classification of organisms into five major kingdoms (any two points). (b) Who proposed the five kingdom classification ? (c) Mention the modification introduced by Woese.	3
10	A baby is suffering from loose motions. Which factors may be responsible for his condition ?	3
11	What are Phanerogams ? Name its two groups along with the criteria of division.	3
12	(a) State Law of conservation of energy. (b) Name the type of energy possessed by the following : (i) Stretched string of a bow (ii) Rolling stone (iii) Stormy wind (iv) Raised hammer	3
13	(a) A dining hall has dimensions 50 m×15 m×3.5 m. Calculate the mass of air in the hall. Density of air = 1.30 kg/m ³ . (b) State the unit of Relative density.	3
14	An object vibrating with a time period of 4 milliseconds produces a wave travelling in a medium with a velocity of 1250 m/sec. Calculate its wavelength.	3
15	(a) Write the SI unit of density. (b) What is the meaning of the statement, the relative density of gold is 19.3 ?	3
16	Shravani purchased a new pair of high heeled shoes. During a picnic she wore these shoes and was very uncomfortable throughout her journey. She got tired very soon. Her friend Smita held her firmly and helped her walk and advised her to wear flat shoes. Answer the following questions based on above passage: (i) Why was Shravani uncomfortable during her journey ? (ii) A girl weighing 400 N is wearing high heel shoes. If she stands on one foot only and the area of heel be 5 cm ² , what pressure is acting on the heel? (iii) What values are shown by Smita ?	3
17	Define isotopes. State any four general characteristics of isotopes.	5
18	Explain the meaning of the terms and give an example in each of the following : (a) symbiotic relationship (b) cotyledons (c) cryptogam (d) saprophytic (e) prokaryotic	5
19	(a) Why is immune system essential for our health ? (b) Name the disease in which our immune system is destroyed. (c) Why is it that other minor infections kill people suffering from this disease ? Explain by giving two examples.	5
20	For hearing the loudest ticking sound by the ear, following experimental setup is made : 	5
	(a) Find the angles x and y in the figure above. (b) Name the phenomenon observed here. (c) State the laws of this phenomenon.	

21	(a) State reason for the following statements - (i) When a piece of cork and an iron nail of equal mass are placed on the surface of water, cork floats while iron nail sinks. (ii) Camel can run in a desert easily. (iii) Knives have sharp edges. (b) A force of 400 N acts on a surface of area 25 square cm. Calculate thrust and pressure. Calculate the changed pressure if the force now is made to 600 N.	5
SECTION – B (OTBA) (* Please ensure that open text of the given theme is supplied with this question paper.) Theme : Clean India – We mean it !		
22	Mention two factors which replenish water back in the environment.	2
23	Mention the applications of the bio-gas plant for school children. How can the slurry be used	3
24	How TSC introduced in Mizoram in 2002 has emphasized on information, education and communication components to change the behaviour of people ?	5
Section – C		
25	In an experiment to verify the laws of reflection of sound the sound heard is maximum when the inner surfaces of the tubes are : (a) solid and polished (b) rough and uneven (c) solid, smooth and polished (d) hollow, smooth and polished	1
26	A student takes a cuboid with dimensions (lxbxh) 8cm, 6cm and 4cm. He measures the pressure of the cuboid using(lxb) face. Now he uses another cuboid of the same material with the dimensions double of the previous ones and repeats the experiment. The change in the value of pressure for the new cuboid is (a) same (b) double (c) triples (d) four times	1
27	A wave passes from one medium to another. Name the property of wave out of the following which varies. (a) Frequency (b) Mass (c) Wavelength (d) Mass and wavelength	1
28	Mode of nutrition in Spirogyra is : (a) Autotrophic (b) Parasitic (c) Saprophytic (d) Holozoic	1
29	A student carried out a chemical reaction between 14.55 g of aqueous silver chloride and 8.5 g of aqueous sodium nitrate. 5.85 g of sodium chloride was formed. What is the mass of silver nitrate formed ? (a) 17.5 g (b) 17.2 g (c) 18.05 g (d) 18 g	1
30	Law of conservation of mass was proposed by the Scientist : (a) Dalton (b) Lavoisier (c) Archimedes (d) Bohr	1
31	Observe the diagram below and identify it. It is : (a) tap root system of monocotyledonous plant (b) fibrous root system of monocotyledonous plant (c) tap root system of dicotyledonous plant (d) fibrous root system of dicotyledonous plant	1
32	Which of the following statement is correct in respect of dicotyledonous plant ? (a) Reticulate venation, one cotyledon and tetramerous flower. (b) Reticulate venation, two cotyledons and pentamerous flower. (c) Parallel venation, two cotyledons and dimerous flower. (d) Parallel venation, one cotyledon and trimerous flower.	1

33	<p>Eggs of various species of mosquito are deposited on stagnant water places like : (i) Ponds (ii) ditches (iii) pools (iv) hot stream Which of the above is incorrect ? (a) i (b) ii (c) iii (d) (iv)</p>	1														
34	<p>The mass of a solid iron cube of side 3 cm is to be determined by using a spring balance. If the density of iron is about 8.5 g CC^{-1} , What should be the least count of the best suited spring balance to determine the weight of solid ?</p>	2														
35	<p>From the given table of densities of different substances, infer whether the given object would float or sink in the given solution ?</p> <table border="1" data-bbox="217 468 649 732"> <thead> <tr> <th>Material</th> <th>Density g/cm^3</th> </tr> </thead> <tbody> <tr> <td>Gasoline</td> <td>0.7</td> </tr> <tr> <td>Gold</td> <td>19.3</td> </tr> <tr> <td>Lead</td> <td>11.3</td> </tr> <tr> <td>Mercury</td> <td>13.6</td> </tr> <tr> <td>Paraffin (wax)</td> <td>0.87</td> </tr> <tr> <td>Platinum</td> <td>21.4</td> </tr> </tbody> </table> <p>Find : (i) Will a bar of gold sink in mercury ? (ii) Will a piece of platinum float on gasoline ? (iii) Will a block of paraffin sink in gasoline ? (iv) Will a piece of platinum sink in mercury ?</p>	Material	Density g/cm^3	Gasoline	0.7	Gold	19.3	Lead	11.3	Mercury	13.6	Paraffin (wax)	0.87	Platinum	21.4	2
Material	Density g/cm^3															
Gasoline	0.7															
Gold	19.3															
Lead	11.3															
Mercury	13.6															
Paraffin (wax)	0.87															
Platinum	21.4															
36	<p>Give an example of an organism which performs cutaneous respiration. Name also the phylum to which it belongs.</p>	2														
-o0o0o0o-																

SUMMATIVE ASSESSMENT – II (2014-15)

SOCIAL SCIENCE

Class – IX

Time allowed : 3 hours

Maximum Marks : 90

General Instructions :

- (i) The question paper has **two sections (Section A and Section B)** with **30** questions in all. All questions are **compulsory**.
- (ii) Marks are indicated against each question.
- (iii) Questions from serial number **1 to 8** are very short answer type questions. Each question carries **one mark**.
- (iv) Questions from serial number **9 to 20** are **3 marks** questions. Answer of these questions should not exceed **80 words** each.
- (v) Questions from serial number **21 to 26** are **5 marks** questions. Answer of these questions should not exceed **120 words** each.
- (vi) Question number **27** and **28** are map question of **3 marks** each, from History and Geography respectively. After completion, attach the maps inside your answer book.
- (vii) Question number **29** and **30** are from **Open Text themes** and each question is of **5 marks**.

SECTION - A

1	How do the Dhanghars earn their livelihood ?	1
	OR	
	How many tigers were killed by British administrator George Yule ?	1
	OR	
	Who created enclosures in the sixteenth century England ?	1
2	Why does the northern part of India experience severe winter in December and January.	1
3	State the full form of NHRC.	1
4	What is the minimum age required to contest elections for Lok Sabha in India?	1
5	Which institution is empowered to administer justice in India ?	1
