**Summative Assessment (S.A. 2) 2015-2016****Class – VII****Subject – English****Time : 3 : 00 Hrs.****M.M. 60****Section – A (Reading)**

A.1 Read the given passage carefully and Answer the following Questions :-

Most of those who buy dogs, seek for the companionship that these beloved animals offer their owners. If you are one of those people who seek companionship from a pet, then a Labrador may be a good choice of pet for you. There are two types of Labradors; the English Labrador and the American Labrador.

The two types of Labrador may be differentiated from each other through their physical traits. Although the Labrador is generally known for being a muscular dog, the English Labrador is actually heavier and looks more bulky while the American Labrador is taller and thinner. These dogs normally come in three solid colours of black, brown or chocolate, and yellow.

This dog breed is known for being lovable and very affectionate to both children and adults. Labradors are very athletic : they love to swim, play catch / Frisbee, and are great with young children. Labrador is trainable and is widely used for drug detection and aiding the blind and the disabled.

- (i) Labrador is of the two types namely : 1  
 (a) English and French (b) American and Russian  
 (c) Indian and French (d) American and English
- (ii) The two varieties of Labradors can be differentiated through - 1  
 (a) Their nails (b) their immunity levels (c) their physical traits (d) their emotional traits
- (iii) Which breed of the Labrador is bulkier and heavier - 1  
 (a) American Labrador (b) French Labrador (c) English Labrador (d) Indian Labrador
- (iv) Labrador is popular not only because they are friendly but also : ½  
 (a) They play Frisbee with kids (b) they can swim  
 (c) they help in drug detection and aid the disabled (d) they come in three colours
- (v) Which word in the above passage is the opposite of ‘compact’ : ½  
 (a) companionship (b) Differentiated (c) Detection (d) Bulky

Q.2 Read the passage carefully and Answer the following Questions :-

There is a myth that there is something magical about computers and those who run them. The legend has got about the computers are ‘electronic brains’ and that programmers are some sort of supermen. The fact are that computers are very stupid and the people who programme them are normal human beings. Anyone who can count from 0 to 7 on his fingers and make eight can learn to be a programmer. The business is not difficult, just tricky.

It is very misleading to imagine that computers can ‘think’ like people. They cannot. They have no more a mind of their own than a lawn mover. However, they make it possible for people to bottle. You work out how to do a particular job or solve a problem, write a programme and the computer will apply your thinking to that job or problem as long and as often as you like. In this sense computers are half alive because they perpetuate the thinking of their creators.

- (i) What do people think about computers and programmers? 1
- (ii) How are programmers different from computers? 1
- (iii) What can computers not do? 1
- (iv) What can computers do? ½
- (v) Which word in the above passage mean ‘cause to continue? ½

Q.3 Read the following poem carefully and Answer the following Questions :

NIGHT

The sun descending in the west,  
The evening star does shine.  
“The birds are silent in their nest,  
And I must seek for mine”.  
The moon, like a flower,  
In heaven’s high bower,  
With silent delight  
Sits and smiles on the night,  
Farewell, green fields and happy groves;  
Where lambs have nibbled, silent moves.  
The feet of angels bright;  
Unseen they pour blessing  
And joy without ceasing,  
On each bud and blossom  
“They look in every thoughtless nest,  
Where birds are covered warm:  
They visit caves of every beast,  
To keep them all from harm”.  
If they see any weeping  
That should have been sleeping  
They pour sleep on their head  
And sit down by their bed.

- (i) The poem conveys a beautiful impression of : 1  
(a) Quietness (b) peace (c) silence (d) all the above
- (ii) The moon is compared to a ----- 1  
(a) Bud (b) angle (c) grove (d) flower
- (iii) The birds in their nests feel ----- 1  
(a) Bright (b) warm (c) sleepy (d) cold
- (iv) The sun sets in the ----- ½  
(a) South (b) North (c) East (d) West
- (v) Pick out the word from the poem which means – ½  
(a) Bower (b) covered (c) thoughtless (d) pour

**Section – B (Writing)**

Q.4 You are Sheetal / Shekhar living at 11 Palam, New Delhi. Write a letter to the Municipal Commission drawing attention of the authorities towards the menace caused by the weekly market vendors. You may take help of the following hints. 5

- \* Vendors walk leaving garbage behind.
- \* Plastics, polythene bags often choke the sewers
- \* Leads to deadly diseases
- \* eve-teasing and traffic jams.

OR

You are Kavita / Krishna. You were recently involved in an incident. Write an account of the accident to your mother in 120-150 words. You may take help of the following hints.

- Last week accident-riding bicycle.
- Head on collision
- Thrown in ditch
- Old woman rescue
- Hospitalized bandaged
- Minor fractures
- On recovery process

Q.5 You are Chitra. Write an e-mail to your friend Jolly inviting her on your birthday party to be held in coming Saturday. Don't exceed 150 words. 5

**OR**

Write a paragraph on 'All that Glitters is Not Gold' with help of the following hints. Don't exceed 150 words.

- In vogue since Shakespearean times
- Useless products, person and things promoted through advertisements
- But the entity shows its true downs in due time
- Star promotes a product we accept it as dazed and amazed
- Look through use logical thinking

Q.6 You are Aditi / Aditya. You are disturbed at the growing violence among children. Write an article for the school magazine on "Growing violence among school children" using your own ideas and those given below in 120 words. 5

- \* Owing to their personal rivalries
- \* television to be blamed
- \* violent video games
- \* talk of parental intervention

**OR**

You are Vijay. Write a debate on the topic 'Brain Drain'. You have to speak against the motion. You may take help of the hints given below.

- Increasing trend among boys and girls
- Go to abroad and get settled
- Loss of premium human resources
- Reason better opportunities and economic prospects
- Make efforts to build our country great
- Work for the nation

**Section – C (Grammar)**

- Q.7 (i) Define tense and give any two examples. 1
- (ii) Structure of - (a) a present perfect tense (b) Past simple tense 1
- (iii) Change the voice of the following sentences – ½×4=2
- (a) The transport arrange from Valencia to Germany in special crates.
- (b) They are destroying the forests in Indonesia.
- (c) They didn't punish him for what he did.
- (d) The kitchen has not been cleaned yet.

- (iv) Change the dialogues given below in the reported speech : ½×4=2
- (a) He said, “Don’t go too far”.
- (b) “Don’t make so much noise”, he says.
- (c) The neighbours said, “Can you lend us a ladder”.
- (d) “Can you solve this problem”? He asked me.
- (v) Do as directed / Fill in the blanks : ½×4=2
- (a) My mother ----- (well/ seldom / very / once) goes to cinema.
- (b) Snakes are worshipped ----- (in / on / at / to ) many countries.
- (c) It ----- (will / may / can / could) rain today.
- (d) She looked ----- (that / as / if / as if / so that ) she were tired.
- (vi) In the passage given below one word has been omitted in each line. The place where a word has been omitted has been indicated with a ‘/’ . Write the omitted word in your answer sheet. ¼×8=2
- Harry Potter / fictional character (a) -----
- Created / J.K. Rowling as (b) -----
- Part / popular Harry Potter series (c) -----
- Of novels. Harry Potter is / orphan (d) -----
- / studies magic at Hogwarts School (e) -----
- / witchcraft and Wizardry. (f) -----
- In the series, Harry / two friends, (g) -----
- Ron weasley / Hermione Granger (h) -----

**Section – D (Literature)**

- Q.8 Word Meanings (**Any Eight**) :- ¼×8=2
- (i) attar (ii) devastated (iii) the fall of rivers (iv) intimidate (v) groomed my fingers
- (vi) sauced (vii) a sunny soul (viii) incurs (ix) misleading
- Q.9 Answer the following Questions (**Any Seven**) : 1×7=7
- (i) Dilruba tells Maqbool that she belongs to his family. Why does she say this?
- (ii) What is the vieward that Maqbool receives from the Princess for taking her out?
- (iii) What are animal welfare groups and how are they trying to help Chimpanzees?
- (iv) What was Jane Good all told when who was in school? Why did she never consider it true?
- (v) Was that particular Wednesday ‘blue’ for Jerusha?
- (vi) Why was the first Wednesday of Every month a difficult day?
- (vii) That made Harris mad----- . What is ‘that’? Why did it make him mad?
- (viii) “We’ll just walk round for ten minutes, and then go and get some lunch”. Why was Harris so confident?

- Q.10 Answer the following in detail:- 2
- How do you think Jerushe felt about being able to go to college?

OR

How do you feel after a sleepless night?

- Q.11 Who spoke these words :- ½×4=2
- (i) “Maqbool mian! What have you go there”?
- (ii) “Mrs. Lippett in the office”.
- (iii) “Oh, one of the largest in Europ”.
- (iv) “It’s absurd to call it a maze”.

**Summative Assessment (S.A. 2) 2015-2016**

**Class – VII**

**Subject – Mathematics**

**Time : 3 : 00 Hrs.**

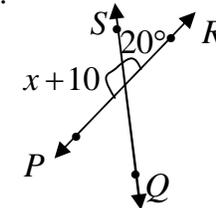

**M.M. 60**

**Section - A**

Q.1 Choose the correct option :-

5×1=5

- (i) Convert  $\frac{19}{25}$  into percentage –  
 (a) 38%      (b) 76%      (c) 57%      (d) 90%
- (ii) The decimal form of 72% is –  
 (a) 7.2      (b) 0.072      (c) 0.72      (d) 720
- (iii) Find the supplement of 126 –  
 (a) 54°      (b) 180°      (c) 90°      (d) 45°
- (iv) In  $\Delta xyz$ ,  $\angle y$  is included between  $\overline{xy}$  and ----- .  
 (a)  $\overline{xz}$       (b)  $\overline{yz}$       (c)  $\overline{zx}$       (d)  $\angle x$
- (v) Find the value of  $x$  :  
 (a) 30°  
 (b) 180°  
 (c) 150°  
 (d) 60°

Q.2 Fill in the blanks :-

5×1=5

- (i) The simplest form of the ratio 26:91=----- .
- (ii) Find 25% of ₹ 300= -----.
- (iii) If CP is ₹ 200 and SP is ₹ 240 then profit percent is ----- .
- (iv) The complement of an acute angle is an -----angle.
- (v) A triangle has ----- altitudes.

**Section - B**

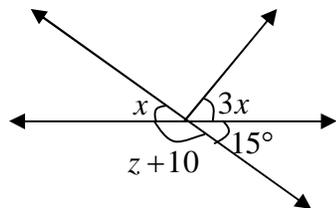

Q.3 Do any ten of the following :

10×1½=15

- (i) A family spends ₹ 7500 per month to buy vegetables, fruits and groceries. The ratio of the amount the family spends for buying them is 2:3:7, respectively. Find the money spent for each category.
- (ii) Express the ratios in the simplest form 5kg. 500g : 990g.
- (iii) There are 80 books in a rack and 64 of them are novels. Find the percentage of the novels in the rack.

- (iv) Vikram bought a motorbike for ₹ 27500 and spent ₹ 1500 for repairs. If he sold it and lost 5% in the deal. Find the selling price of the motorbike.

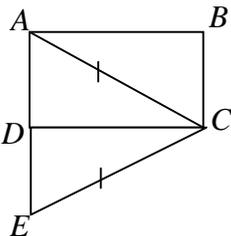

- (v) Find the value of  $x$  and  $z$ .

- (vi) An exterior angle of a triangle measures  $60^\circ$  and one of its interior opposite angle is  $40^\circ$ . Find the measure of the other interior opposite angle.

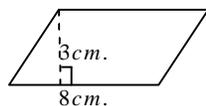

- (vii) The three angles of a triangle are in the ratio 3:4:2. Find the measure of each angle.

- (viii) In the figure  $ABCD$  is a rectangle,  $AC = EC$  and  $D$  is the midpoint of  $AE$ . Find how many pairs of congruent triangles are there. Write the congruence in a symbolic form.

- (ix) The marks obtained by a student in five class tests are 38,40,36,33,31. Find the mean score.

- (x) Find the area of Parallelogram.

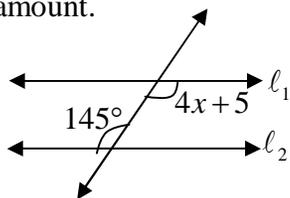

- (xi) The diameter of a flower bed in a garden is 2.8m. Find the cost of fencing it at the rate of ₹ 55 per m.  
 (xii) The heights of different types of trees in feet are given below. Find the median of the data 10,25,30,10,40,12,30.

### Section - C

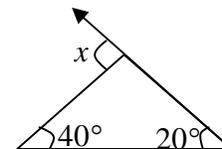

Q.4 Do any ten of the following :-  $10 \times 2 = 20$

- (i) The cost of 15 boxes of apples is ₹ 1440. Find the cost of 25 such boxes of apples.  
 (ii) The monthly installment of Mr. Rakesh's housing loan is reduced from ₹ 9600 to ₹ 8000. Find the percentage decrease in the installment amount.

- (iii) If  $l_1$  is parallel to  $l_2$ , find the value of  $x$  in the figure.

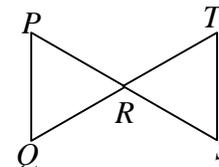

- (iv) Find the value of  $x$ .

- (v) The two sides of a rectangle are 15cm. and 20cm. Find the length of its diagonal.

- (vi) In the given figure,  $QR = RS$ ,  $PQ = TS$  and  $\angle Q = \angle S$ . Prove that  $PR = TR$ .

- (vii) A door of length 2.5m. and breadth 1.5m. is fitted in a wall. The length and breadth of wall are 6m. and 4.5m. respectively. Find the cost of white washing the wall at the rate of ₹ 30 per sq. m.

- (viii) The following data gives the information about the number of children in 21 families in a locality 2,1,3,4, 2,2,1,3,2,6,4,3,3,2,1,1,3,2,1,1,2. Find the mode of the data by tabulating the observations.

- (ix) A radio jockey selects music for a radio programme. She can choose a song from eight rock songs, three classical songs and four filmy songs.

(a) What is the probability that she chooses a rock song?

(b) What is the probability that she does not choose a filmy song?

(c) What is the probability that she chooses a folk song?

- (x) Find  $x$  if  $x : 39 :: 6 : 8$ .

- (xi) Esabella borrowed ₹ 15000 from a bank for 3 years at the rate of 12% per annum. Find the interest she has to pay during this time.

- (xii) Mrs. Sen bought 2kg. of pulses and used 30% of it for making sweets. Find the weight of the pulses used for making sweets.

### Section - D

Q.5 Solve the following :-  $2\frac{1}{2} \times 2 = 5$

- (i) The length and breadth of a rectangular garden are 96m. and 74m. respectively. A path 4m. wide is to be constructed outside and around the garden. Find the area of the path.

OR

A car is moving on a irregular path and distance covers by it in per unit time is given. Read the following data and construct a distance time graph on a graph paper :

$$1\frac{1}{2} \times 2 = 3$$

Time (in Minutes)	Distance (in Km.)
10min.	5km.
20min.	15km.
30min.	40km.
40min.	30km.
50min.	10km.
60min.	20km.
70min.	25km.
80min.	15km.

Well labeled.

Q.8 Draw a labelled Diagrams (**Any Two**) :-

$$2 \times 2 = 4$$

- (i) electric bell                      (ii) spectrum  
 (iii) sundial                              (iv) parts of flower

**Subject – Science**

**Time : 3:00 Hrs**

**M.M. 60**

**Part - A**

Q.1 Multiple Choice Questions :-

$$\frac{1}{2} \times 6 = 3$$

- (i) The products of anaerobic respiration are :  
 (a)  $\text{CO}_2$  & water                      (b)  $\text{CO}_2$  & alcohol  
 (c)  $\text{H}_2\text{O}$  & alcohol                      (d)  $\text{H}_2\text{O}$  &  $\text{O}_2$
- (ii) Organisms that excrete uric acid as a waste product are referred to as :  
 (a) Ureotelic                              (b) uricotelic  
 (c) ammonotelic                          (d) non of these
- (iii) Organism that reproduce by means of fragmentation :  
 (a) Fungi      (b) spirogyra      (c) yeast      (d) masses
- (iv) In a 200m race, an athlete takes 50 sec to run the distance. Find his speed :  
 (a) 5m/s      (b) 10m/s      (c) 4m/s      (d) 6m/s
- (v) The image formed by a plane mirror is :  
 (a) upright                                  (b) virtual  
 (c) same size as object                  (d) all of these
- (vi) The purest form of water is :  
 (a) Sea  $\text{H}_2\text{O}$                               (b) rain  $\text{H}_2\text{O}$   
 (c) ground  $\text{H}_2\text{O}$                           (d) river  $\text{H}_2\text{O}$

Q.2 Fill in the blanks :-

$$\frac{1}{2} \times 6 = 3$$

- (i) Calcium & Magnesium bicarbonates cause ----- hardness.  
 (ii) Many inter connected ----- forms food web.  
 (iii) ----- reproduces with the help of leaf.  
 (iv) Colourless part of blood is referred to as ----- .  
 (v) External respiration is also known as ----- .  
 (vi) A sand clock is also known as the ----- .

Q.3 Give Answer in One word :-

$$\frac{1}{2} \times 6 = 3$$

- (i) Time taken by a pendulum to complete one oscillation?  
 (ii) The female organ of a flower.

- (iii) Another name for H<sub>2</sub>O cycle.
- (v) Planting of more trees?
- (v) The nutrient rich H<sub>2</sub>O promotes the growth of weeds the condition is called.
- (vi) This is used to make & break an electric circuit.

Q.4 Write True OR False :-  $\frac{1}{2} \times 6 = 3$

- (i) Nichrome is used for making fuse wires.
- (ii) Arteries are thick walled.
- (iii) Lactic acid is product of anaerobic respiration in human.
- (iv) Yeast reproduces by the method of budding.
- (v) A uniform motion is represented by a straight line on a distance time group.
- (vi) The image formed in a concave lens is always virtual.

Q.5 Very Short Answer (**Do Any Eight**) :-  $1 \times 8 = 8$

- (i) What is sludge?
- (ii) Define ecosystem.
- (iii) Define fuse & its type (name only).
- (iv) What is a solenoid?
- (v) What are real & virtual images.
- (vi) Define lightning.
- (vii) What do you mean by measurement?
- (viii) Define reproduction & its type.
- (ix) Any two differences between arteries & veins.
- (x) How will you change 15m/s into km/h & 30 km/h into m/s.

Q.6 Short Answer (**Any Seven**) :  $2 \times 7 = 14$

- (i) Differences between Aerobic & anaerobic respiration.
- (ii) Composition of blood & state the functions of each of them?
- (iii) Sexual reproductive structure of plant & describe the types of flower.
- (iv) What are monsoon winds?

- (v) What is reflection of light & describe its type with diagrams?
- (vi) Define electric circuit & draw a circuit diagram for open & close circuit.
- (vii) What are natural resources & classify them.
- (viii) Differentiate between soft H<sub>2</sub>O & hard H<sub>2</sub>O.
- (ix) Define food web & draw a diagram for the same.
- (x) Steps to prevent H<sub>2</sub>O pollution.

Q.7 Long Answer :-

- (i) Explain the steps involve in waste water treatment with the help of a suitable diagram.  $\frac{3}{4} \times 4 = 3$

**OR**

Define lense & differentiate between concave and convex lense draw principal focus for concave and convex lenses.

- (ii) What is fertilisation? Explain the process with the help of a diagram and describe the post fertilisational changes in a flower.

**OR**

Differentiate between sexual and asexual reproduction in detail.  $1\frac{1}{2} \times 2 = 3$

- (iii) Describe the structure of heart and explain its working with diagram.  $1\frac{1}{2} \times 2 = 3$

**OR**

Explain respiration and mechanism of respiration and how exchange of gases takes place.

- (iv) Explain tissue culture with the help of diagram.  $1\frac{1}{2} \times 2 = 3$

**OR**

Write a short note on the various kinds of Urban settlements.

(ii) What were the major teachings of Kabir?

OR

Write a note on the main features of Mughal Paintings.

(iii) What are the various principles, the media should follow?

OR

Discuss the various types of advertisements.

(iv) Write a note on the reasons for the decline of the Mughal Empire.

OR

Write a short note on the life of people in Ladakh.

Q.8 (i) Draw the diagram of system— 2

“The Formation of Tides”.

(ii) On outline map of India – Mention the following places under Mughal Empire. 2

- (a) Chittor (b) Delhi  
(c) Agra (d) Fatehpur Sikri

Q.1 Multiple Choice Questions:- 6×½=3

- (i) The percentage of saline ocean water is –  
(a) 97 (b) 71 (c) 90
- (ii) Beijing is an example of an / a ----- town.  
(a) Administrative (b) cultural (c) Mining
- (iii) The Mughal Queen who struck coins in her name was –  
(a) Mumtaz Mahal (b) Nur Jahan (c) Razia Sultan
- (iv) Kabir preached his thoughts in beautiful couplets known as –  
(a) Viachanas (b) Vanis (c) Dohas
- (v) Who among the following worked for the upliftment of woman –  
(a) Ishwar Chandra Vidyasagar (b) Motilal Nehru  
(c) Vinoba Bhave
- (vi) Musical composition used in electronic advertisements are called –  
(a) Brands (b) Classifieds (c) Jingles

Q.2 Write True OR False :- 6×½=3

- (i) Gender inequalities lead to certain stereotypes.
- (ii) Directive principles of state Policy is Fundamental Right of every citizen.
- (iii) Babur was a descendant of the Mongols.
- (iv) Aurangzeb was one of the Later Mughals.

(v) Insolation is the amount of solar energy received by the Earth.

(vi) Ladakh has a great variety of fauna.

Q.3 Answer in One word :-  $6 \times \frac{1}{2} = 3$

(i) The instrument used to measure air pressure.

(ii) Which is the largest and deepest ocean?

(iii) Which Mughal ruler executed the Ninth leader (Guru) of the Sikhs?

(iv) Who translated the Bhagavad Gita from Sanskrit to Marathi?

(v) In which year the Right to Information Act was passed?

(vi) What Right has become a Fundamental Right in recent years?

Q.4 Fill in the blanks :-  $6 \times \frac{1}{2} = 3$

(i) In the world of advertisement, the identity of specific product is called ----- .

(ii) The Media plays the role of an ----- .

(iii) ----- was the last Mughal emperor.

(iv) The ----- Philosophy is based on devotion to God through the attainment of knowledge.

(v) A dispersed rural settlement is also called ---- settlement.

(vi) ----- is a huge salt water lake in Ladakh.

Q.5 Answer in Very Short :-  $9 \times 1 = 9$

(i) What kind of animal is the addax?

(ii) Give a examples each of Market towns and administrative towns.

(iii) Name any two various forms of Condensation.

(iv) What does the term Sulh-i-kul signify?

(v) What is the name of the book that contains Meerabai's songs?

(vi) Why is Jaipur known as the 'Pink City'?

(vii) What is Jingles?

(viii) What is the meaning of gender?

(ix) What is the full form of ASHA?

Q.6 Answer in Short [3-4 lines] (**Any Ten**) :-  $10 \times 1\frac{1}{2} = 15$

(i) What are some of the important issues on which the state government makes laws?

(ii) Write a short note on the importance of Print Media.

(iii) Why is advertising important?

(iv) What is an informal sector job?

(v) Explain in brief the system of governance during the reign of Shah Jahan.

(vi) What do you understand by the term 'Urs'?

(vii) What was Sabaq-i-Hind and name two Persio Arabic ragas?

(viii) Write a short note on Shivaji?

(ix) How do we measure temperature?

(x) What are the main factors responsible for ocean currents?

(xi) What are the five patterns of rural sttlements?

(xii) How is Ladakh accessible?

Q.7 Answer in Detail :-  $4 \times 2\frac{1}{2} = 10$

(i) In what ways are tides useful to us?

**OR**

Q.10 Answer in Detail [**Do Any Four**] :- 2×4=8

- (i) What is newsgroup? Explain briefly.
- (ii) Briefly explain antivirus software. Name the antivirus software which is being used in your school.
- (iii) How will you rotate an object?
- (iv) What is the use of Union skin tool?
- (v) How can we draw a rectangle? Explain with an example.
- (vi) Difference between finite & Infinite loop?
- (vii) What is the difference between WHILE----WEND and do UNTIL?

**PRACTICAL → 20**

\*\*\*\*\*

NLCS/2015/103

ROLL NO. \_\_\_\_\_

## Summative Assessment (S.A. 2)-2015-2016

Class – VII

Subject : Computer

Time : 1: 30 Hrs.

M.M.60

Q.1 Fill in the blanks:-  $\frac{1}{2} \times 6 = 3$

[animation, blog, view, looping, adobe system, grid, self replicating, show grid, variable]

- (i) Flash is a powerful \_\_\_\_\_ software package developed by \_\_\_\_\_
- (ii) To display the grids on the stage, select \_\_\_\_\_ > \_\_\_\_\_ > \_\_\_\_\_.
- (iii) A \_\_\_\_\_ is a meaningful name of data storage location in computer memory.
- (iv) \_\_\_\_\_ means repeated execution of a set of statements in a program.
- (v) A \_\_\_\_\_ allows a user to share their thought with the world.
- (vi) Virus programs are \_\_\_\_\_.

Q.2 True OR False:-  $\frac{1}{2} \times 6 = 3$

- (i) The default stage size is 550×400 pixels.
- (ii) An animation cannot be repeated more than once.
- (iii) The background colour code for Gray colour is 7.
- (iv) STEP value can never be negative.
- (v) You can group and store one type of contacts in a group. [      ]
- (vi) Trojan Horse replicates themselves.

Q.3 Full forms:-  $\frac{1}{2} \times 4 = 2$

- (i) E-Mail                      (ii) WWW
- (iii) VIRUS                      (iv) IDE

- Q.4 Application based Questions :-  $1 \times 4 = 4$
- Kareena wants to draw lines in eight different direction but she is unable to do so. Suggest her the command to performs this task?
  - The teacher asked Priya to make a program in Q-Basic & print the series 2,5,10,-----101. She wants that the program should run for 10 times. What logic will you suggest her to apply to get the desired output?
  - Sumit's computer is not working properly. The executable files & programs with extensions like .com, .exe, .ovl, .drv, .sys on his Pc have got infected. What type of virus has entered into his computer?
  - Isha is a fine art student. She has drawn various sketches in different layers in flash. She does not want to make any further changes to her sketches. Which option should she used to lock all layers & how it is indicated with?

- Q.5 Multiple Choice Questions :-  $\frac{1}{2} \times 4 = 2$
- Which is the extension of flash –  
(a) .Fla                      (b) .Flash                      (c) .Fas
  - Which key combination can group the object in flash?  
(a) Ctrl+0                      (b) Shift+G                      (c) Ctrl+G
  - statement is used to set the screen resolution.  
(a) Drawing boxes    (b) Colour    (c) Screen
  - When was the first PC virus released?  
(a) 1897                      (b) 1985                      (c) 1987

- Q.6 Match the following :-  $6 \times \frac{1}{2} = 3$
- |   |                          |
|---|--------------------------|
| (i) Extra browser windows                 | (a) Larry page           |
| (ii) Twitter                              | (b) Ctrl + Loop playback |
| (iii) Google                              | (c) Pop-ups              |
| (iv) Key used to convert object to symbol | (d) F5                   |
| (v) Repeat the animation                  | (e) Jack-Dorsey          |
| (vi) Key used to insert a frame           | (f) F8                   |

- Q.7 Answer in One Word :-  $1 \times 5 = 5$
- What are the default stage dimensions displayed on the flash window?
  - Who released the first PC virus?
  - Which statement shifts the control back to the WHILE statement?
  - Which statement displays message or output of a program?
  - In which year Q-Basic language developed?

- Q.8 Definition :-  $1 \times 4 = 4$
- What is Resolution?
  - What is looping?
  - What is mailing list?
  - What do you understand by the terms spyware?

- Q.9 Answer in Brief :- [**Do any Four**]  $1\frac{1}{2} \times 4 = 6$
- Explain the term Trojan Horse.
  - What do you know about flash?
  - How will add a new layer?
  - What is the difference between IF-----THEN and IF-----THEN-----ELSE statements?
  - Define the FOR-----NEXT looping statement?
  - How will you add a new contact in an address book?
